

1st Northern Europe “4 per 1000” Regional meeting

Elisa Vainio

**Project Manager, Regenerative Agriculture,
International Soil Collaboration**

More carbon in the soil for multiple benefits

1st Northern Europe 4per1000 Regional meeting

WHY?

Soils are extremely important and highly potential carbon storages for climate change mitigation.

WHAT?

High-level talks
Panel discussion
Posters
Success story videos
Field trips

WHEN AND WHERE?

6TH to 8TH June 2023
Helsinki, Finland

THEMES?

Healthy soils: climate, biodiversity, waters
Monitoring, reporting, verification (MRV)
Peatlands – special case

Join the event

The meeting aims to stimulate and enlighten interactions between multiple stakeholders – researchers, farmers, decision makers and companies.

We warmly welcome researchers as well as interested farmers, company representatives, NGOs, and policy makers
